Theme: The Mid-Autumn Festival is held on the 15th day of the eighth month in the [Chinese calendar](#), which is usually around late September or early October in the [Gregorian calendar](#). It is a date that parallels the [autumnal equinox](#) of the [solar calendar](#), when the moon is supposedly at its fullest and roundest. The traditional food of this festival is the [mooncake](#), of which there are many different varieties.

The Mid-Autumn Festival is one of the few most important holidays in the Chinese calendar, the others being [Chinese New Year](#) and [Winter Solstice](#), and is a legal holiday in several countries. Farmers celebrate the end of the summer harvesting season on this date. Traditionally on this day, Chinese family members and friends will gather to admire the bright mid-autumn [harvest moon](#), and eat moon cakes and [pomelos](#) under the moon together.
